19) The estimate is corrected to Rs 80,000/- retaining original rates. In the case of big works, it is necessary to call for tenders and then allot work on the basis of lowest tender even if work is done on piece work, it is very desirable to fix up rates by calling for quotations and then distribute works It is uneconomical and irregular to give away works without fixing up rates in a proper manner As many big works appear to be carried out without calling for tenders or quotation, it must be pointed out to the Chairman that this procedure is against rules

No. 826

Bangalore, dated 9 Oct '46.

To

The President,
City Municipality,
Mysore.

Subject: Formation of further extension to the East of Elgin Fountain, Bannimantap Road, Mysore.

Sir,

I have the honour to state that the scheme regarding the above, has been referred to me for my opinion, by the Revenue Secretary. I find that it cannot be judged without

(1) A contour plan of the area in question (particularly important with reference to the drainage problems.)

(2) A plan showing the adjoining road-net and housing areas.

I shall be grateful if both could be sent to me very early to enable me to report to Government in the matter.

I have etc.,

Sd/- O H Koenigsberger

SS/9th. GOVERNMENT ARCHITECT.

No 827 Dated 9 Oct '46

Copy of the above is forwarded with compliments to the Revenue Secretary for information with reference to U O No 10/46-47 dated 2-9-'46 The file will be returned as soon as the necessary information is received from the Municipal President, Mysore

9/10/46

GOVERNMENT ARCHITECT

9/12/46

To

The Chairman, C & T Board

Mysore

Estimate for Rs 80,000- for the Construction of a further extension to the East of the Elgin Fountain, Devaraj Mohalla, Mysore

Sir,

With reference to your letter No D 2-C 372/45-46 dated 29-6-46 I am directed to state that the Chief Engr for Roads and Buildings has scrutinised and corrected the above estimate for Rs 74,170 with the observation that as far as possible tenders or quotations should be called for for the execution of the work to get the advantage of the lowest

Clean copy

Quotations I am to enquire whether the above estimate may be sanctioned for Rs 74,170-

Information may also be furnished as to how many hereditary ~~the proposed new~~ sites so formed would be disposed of — either for upset price or in public auction and if, for upset price, what are the principles of disposal and what is the upset price to be fixed per Sq Yard? ~~This~~ new extension fund would be ~~may~~ required ~~for~~ summarily I have no authority to funds for extension?

To

J B NALLARADHYA, Esq, M A,
Secretary to the Government of
His Highness the Maharaja of Mysore,
Revenue Department, Bangalore

Sir,

Re - Estimate for P 80,000/- for the formation of a further extension to the east of the fountain in Bannimantap, Mysore

---

With reference to your Nos L 8543 dated the 9th December 1946 and L 11106 dated the 10th February 1947 regarding the above, I have the honour to state that 58 sites have been formed in this extension apart from 3 big plots proposed for public buildings The sites have been disposed of at upset prices fixed by the Board in their Resolution No 348/A dated the 27th February 1946 (copy enclosed)

While the total realizations by sale of sites in this extension is expected to be R-1,51,457/- (excluding the big plots proposed for public buildings) the expenditure on the layout is estimated to be Rs 80,000/- only The balance amount that will be available is proposed to be utilized for further improvements of the Bannimantap Extension

The work of formation of the extension was started on piece work system about a year back as the matter was urgent and formation of roads, construction of road crossings and metalling of roads have already been completed

As regards the acceptance of the estimate scrutinized by the Chief Engineer for Roads and Buildings, for P 74,170/- against Rs 80,000/- as proposed by this office, the reduction in the estimate amount is due to the correction in the rates for certain items of works provided in the estimate of this office The rate of 0-8-0 for conveying one cyd, of debris partly by head load of 400' and partly by cart load with an average lead of 4 furlongs provided in the estimate is necessary in consideration of enormous increase of cart hire from 1-8-0 to R 5-0-0 per day of 8 hours The debris is mostly conveyed in carts only and as such, the average rate provided may kindly be retained for the rate of 0-8-0 per sq yd, of metalling with broken field metal provided in the estimate A data sheet

P T O

is herein enclosed for kind perusal The rates for several works noted in the data are the minimum rates taken from the r called for by this office and may therefore be kindly approved.

I request the favour of early sanction to the estimate of Rs 80,000/-

I have the honour to be,
Sir,
Your most obedient servant,

Chairman
